Passaic Valley Sewerage Commissioners Reorganize for 2010

NEWARK – Anthony J. Luna of Lodi was re-elected by his peers as Chairman of the Passaic Valley Sewerage Commissioners (PVSC) and Carl S. Czaplicki, Jr. was re-elected Vice Chairman of the agency at the 118th Reorganization of PVSC, held May 4.

“I want to thank my colleagues for this renewed vote of confidence and want them to know that I will serve with that confidence, knowing that we’ll all work together to keep this agency moving forward in a positive, fiscally sound and operationally superior way,” said Luna.

Luna is serving in his second term as a Commissioner of PVSC and this will be his second consecutive annual term as Chairman. He works as Town Manager for the Borough of Lodi and previously served as the borough’s Mayor.

Czaplicki, of Jersey City, was elected to his fifth one-year term as PVSC Vice Chairman. He was first appointed to PVSC by Gov. Christie Whitman in 1999.

Commissioner Frank Calandriello of Garfield was re-elected as PVSC Treasurer and Commissioner Angelina Paserchia of Belleville was elected PVSC Secretary.

PVSC is the largest wastewater treatment facility in New Jersey and the 5th largest facility of its type in the nation. It treats up to 330 million gallons of wastewater every day – nearly 25% of all the wastewater generated in New Jersey. The agency was recently awarded a National Association of Clean Water Agencies’ *Platinum Award* for five consecutive years of perfect environmental permit compliance.
