PVSC SILVER BMP

BATCH DISCHARGE LOG

YEAR _____

<u>Date</u>	<u>Silver Concentration of Batch</u>	<u>%Silver Recovery After Treatment</u>	<u>Action taken if % Silver Recovery is not Achieved</u>

Formula :
$$\frac{(\text{Influent} - \text{Effluent})}{\text{Influent}} \times 100 = \% \text{ Recovery}$$

Retain these records and any other related documents for a period of 5 years. These records must be available upon request of a PVSC Inspector.

Example: If you are using Silver Test Papers with a scale of 0 to 10, first take a reading of the influent (the untreated waste water), then take the reading of the effluent (the treated waste water). Use those numbers in the % recovery formula.

If you have any questions call the PVSC Pollution Prevention Dept. at (973) 817 5975.
